

Workshop & Seminar Programme

May – October 2017

Informing, educating and inspiring

At CoramBAAF we are committed to providing high quality training and learning opportunities. Building on the success of our delivery in 2016 and incorporating both positive and constructive evaluations and feedback on our workshops, seminars and commissioned training events, we continue to update our programmes to ensure they are flexible and responsive of the service delivery contexts. We are therefore delighted to introduce a number of new workshops (some in new locations) to our programme with fixed dates as well as those we are presenting for expressions of interest where dates will be confirmed once this has been established. Our second six monthly workshops and seminars programme October 2017 – March 2018 will be available from July 2017.
